

Featuring incredible audio performance flexibility, the DAC2.7 is musically open, detailed and natural sounding.

The DAC 2.7's DR Core is the result of 20+ years of engineering to refine the digital-to-analog process and is comprised

**of three major components:** Low Noise and Ultra Low

Noise Master Clocks; Advanced Asynchronous Interfaces; and Dual Mode Low-Noise High Efficiency Power Supplies. HDR Core technology is fundamental to every e.One, DAC and Integrated Bel Canto product, creating the most realistic, open and defined musical experience possible.

**MSRP \$2,495.00** *Call for special pricing on Demo & Pre-Owned.*

Black or Silver Faceplate

Size: 12.5 in x 8.5 in x 3.5 in (LxWxH)

Weight: 30.86 lbs (14 kg)

***Maximum Data Input Rate:***

24 bit Data at 192KS/s: AES XLR, SPDIF BNC/RCA, TOSLINK, USB

Master Clock jitter: 70 femtoseconds RMS, 100 Hz-1 MKz

***Analog 24/192/DAC Section:***

Maximum Output: 4.4 Vrms balanced XLR, 2.2 Vrms RCA

Output Impedance: 200 ohms balanced XLR, 100 ohms RCA

Frequency Response: 20 Hz-20 KHz, +/- 0.5 dB

THD+N: <0.0015%, 4 Vrms balanced out, 1 KHz

Output Noise: 3.3u Vrms A-weighted 20 Hz-20 KHz

Dynamic Range: 124 dB A-weighted 20 Hz-20 KHz
